Adya

The operating system for agentic AI — where ideas become products that ship to the world.

ADYA.AI

01 AT A GLANCE

10K+ DEVELOPERS BUILDING ON ADYA

12K+ AGENTIC SYSTEMS DEPLOYED

21 ENTERPRISE CLIENTS IN PRODUCTION

$6M+ ACTIVE SALES PIPELINE

02 GLOBAL RANKINGS

#4 **SWE-Bench Verified**
Software-engineering benchmark, worldwide

#6 **T-Bench 2.0 Global Leaderboard**
Tool-use & agentic-reasoning benchmark

+21% **ADI vs. GPT-4 on OpenEval**
Adya Deep Intelligence, in-house model

03 VALIDATION

Microsoft
Featured in *AI First Movers FY26*: "Building the Future of Intelligent Systems."

Google Cloud
Two published customer stories — AI & ONDC. Featured in Google × Inc42 Bharat AI Startups Report 2026.

NVIDIA
Selected as a Top 10 global agentic-AI innovator; founder featured on NVIDIA's channel.

Accenture Ventures
Winner, Accenture Venture Competition.

INSEAD AI 50
Featured AI venture, alumni-led INSEAD AI Forum.

Inc42 AI Startups to Watch
Nov 2025 cover feature on Indian agentic AI.

A THE PROBLEM

Most AI today ships *demos*, not deployments.

Enterprises and builders are stuck between brittle chatbots and consultant-led pilots that never reach production. Agents don't coordinate. Memory doesn't persist. Governance is an afterthought. The result: AI investments that demo well and deliver little.

B WHO BUILDS ON ADYA

i **Builders, developers & freelancers**
Create AI agents and applications on Adya, then sell them through the marketplace to a global buyer base.

ii **Mid-market companies**
Adopt off-the-shelf and custom Adya products to automate operations, sales, support & finance — without an in-house AI team.

iii **Enterprises — CEOs & CTOs**
Deploy Adya as the agentic operating system across the org — build vertical AI, govern it, and run it at scale.

C THE SOLUTION

One platform — anchored by *SAI*, the Super Agent.

Adya is a full-stack agentic AI operating system. **SAI** — our flagship Super Agent — orchestrates the rest of the stack: describe what you want in natural language, and SAI assembles the agents, the workflow, the data layer, the governance, and the deployment. Build, run, govern, and monetize — in one place.

D PROPRIETARY IP

01 / GOVERNANCE
AGP Adaptive Governance Protocols
Runtime policy, safety & observability layered into every agent — so production is as trusted as the demo.

02 / COORDINATION
MAN Multi-Agent Network
Decentralised agents that decide whether to act, delegate, or spawn new agents — no central orchestrator, no bottleneck.

03 / MEMORY
ESM Event-Sourced Memory
Persistent, replayable, auditable memory across agents — the substrate that lets AI learn from every interaction.

04 BUILT ON ADYA

LIFE SCIENCES
Drug Discovery & Population Health *OS*
Multi-agent platform for cohort intelligence, trial design & clinical workflows — deployed with leading life-sciences design partners.

FINANCIAL SERVICES
Agentic Banking *Stack*
Underwriting, KYC, claims, advisory & collections automated with governed agents across BFSI.

ARCHITECTURE · ENGINEERING · CONSTRUCTION
AEC Industry *AI Platform*
24-month rollout for a European AEC multinational: domain LLMs & MCP integrations to industry design and project tools.

DEFENCE & PUBLIC SECTOR
Air-gapped Agentic *Operations*
On-prem, air-gapped agentic platform for Indian Defence — multi-agent task allocation, MLOps & AGP-governed safety boundaries.

COMMERCE
Marketplace & Retail *Agents*
Catalog, listings, customer support, returns — orchestrated across channels for India's largest commerce platforms.

EDUCATION · BUILDER ECOSYSTEM
Adya *Launch Lab*
Building India's next generation of AI creators — students move from learning AI to *building* AI products on Adya, publishing them to the marketplace.

Partner campuses across 6 states: SRM Valliammai · Chandigarh University · JECRC University · MET Mumbai · Sri Eshwar (Coimbatore) · Roorkee Institute of Tech · Chennai Institute of Tech · Karpagam · Adi Shankara · KIT Coimbatore.

PARTNERS: STARTUP INDIA · MEITY · IDFC FIRST · GOOGLE · IBM VENTURES · TIE

05 CASE STUDIES

Microsoft
AI FIRST MOVERS FY26

"Building the Future of Intelligent Systems."
Microsoft profiled Adya as one of the world's leading AI innovators — calling out the **Super Agent Platform** for orchestrating specialised agents across **healthcare, retail, financial services, energy & professional services**, and the Adya Launch Lab as **India's largest AI ecosystem** with 10,000 startups and 40,000 builders, in partnership with Startup India & MeitY.

Google Cloud
CUSTOMER STORY

Adya partnered with Google Cloud on **App Studio** — a sequence of agents that take a natural-language brief and produce a deployed application end-to-end on GKE, Vertex AI & Gemini. **Builds that took 3–10 developer-months now ship in 15 minutes to one hour.**

NVIDIA
TOP 10 INNOVATOR

Selected as a global Top 10 agentic AI innovator. NVIDIA's research team validated Adya's architecture in a multi-week deep-dive that shaped the foundations of MAN and ESM — founder featured on NVIDIA's channel.

Accenture Ventures
Winner, Accenture Venture Competition. Inducted into Accenture's enterprise co-sell motion across Tier-1 accounts.

06 IN THE PRESS

CNBC TV18 VIDEO INTERVIEW
Founder feature on India's agentic AI moment.

YourStory VIDEO INTERVIEW
Long-form on Adya's product, vision & ecosystem play.

Inc42 RECURRING FEATURE
"AI Startups to Watch" cover (Nov 2025); featured in Google × Inc42 Bharat AI Startups Report 2026.

Prodwrks LONG READ
"AI that builds AI — democratising what was once the exclusive domain of Silicon Valley."

India AI Impact Summit KEYNOTE
CII · TiE Delhi · STPI — Cloud & AI as a Platform.

IAMAI India Digital Summit SPEAKER · JURY
Panel: The Future of Agentic AI in India.

E OUR VISION

A world where anyone with an idea has the *freedom* to build it, ship it, and put it in front of the people who need it.

Builders. Companies. Communities. Adya is the end-to-end platform that gets them there — from *creation* to *community* to *commerce*.

F LEADERSHIP

SM — Shayak Mazumder
CO-FOUNDER · CEO & CTO
INSEAD MBA. Former Lt Cdr, Indian Navy (NBC warfare, naval aviation). Scaled $1B+ international commerce across 21 countries. Visiting faculty in AI/ML; guest lecturer, INSEAD.

AS — Archana Shah
CO-FOUNDER · COO
IIM Bangalore (Women Entrepreneurship); MIT Global SCALE Network. Co-founded Eunimart (Techstars · Alchemist). Operations, finance, partnerships & people.

SK — Dr. Santosh Kakarla
HEAD OF DATA SCIENCE & RESEARCH
PhD, Université Paris-Saclay (Computational Mechanics). Research on multi-agent architectures, RL & scalable deep learning. Drives Adya's research agenda.

AS — Amit Srivastava
VP PARTNERSHIPS
MBA, Univ. of Rochester (Top-25 US B-school). 20+ yrs across e-commerce, SaaS, BFSI, ONDC. Previously Deloitte, Clensta, BillionApps.

MS — Mahesh Siddamsetty
HEAD OF PRODUCT
14+ yrs in enterprise SaaS across China & Singapore. Ex-Uniphore, Quest, BinaryTree. Co-founded Bumblebot Technologies. Leads platform & marketplace strategy.

07 MORE USE CASES

REAL ESTATE
Property Lifecycle *OS*
Listings, lead qualification, virtual site visits, financing & legal — one agentic spine across the funnel.

ELECTRIC MOBILITY
EV Operations *Intelligence*
Fleet, charging-network, battery-health & rider-experience agents working in coordination.

CUSTOMER ENGAGEMENT
Contact Centre *Agents*
Voice and chat agents that understand intent, take action, and escalate cleanly — not just answer.

IT SERVICE MANAGEMENT
Autonomous *ITSM*
Ticket triage, root-cause, runbook execution — closing the loop between humans and infra.

MARKETPLACE
The Adya *Marketplace*
Where developers list and monetize their agents — and where companies buy production-ready AI by outcome, not headcount.

APPLICATION GENERATION
App Studio & Cloud Studio
From conversation to deployed application in minutes. Granular control on infra: GKE, VPC, observability, tenancy.
